CERÁMICA

Irida Hotel | Collections: Lao Sand y Amazonia Canela

At Cerámica Mayor, we are pioneers in the **development of systems for pools and spas**. We offer high-performance ceramic products to the end customer. Our products take a step further in **integrating your pool with its surroundings**, allowing you to combine any of our pool systems with the finish of your patio or terrace, creating a unique **outdoor habitat**.

Special drainage pieces:
They facilitate channeling, easy installation, no breakage or noise, suitable for all types of pools.

Primavera Park Hotel | Swimming Pool Oasis | Collection CroscutPetra | RJ25

01

The adaptability of *FLEX Drainage Grates*

The RJ20 Flex and RJ25 Flex drainage grates stand out for their design, which can adapt to different pool shapes. Their easy installation makes them ideal for large design and construction projects. Thanks to the cushioning rubber system, noise from foot traffic is minimized, and protection against breakage is ensured.

Collection Bali Goa | Format 14,7x14x7 cm

The tropical style of *Bali Goa*

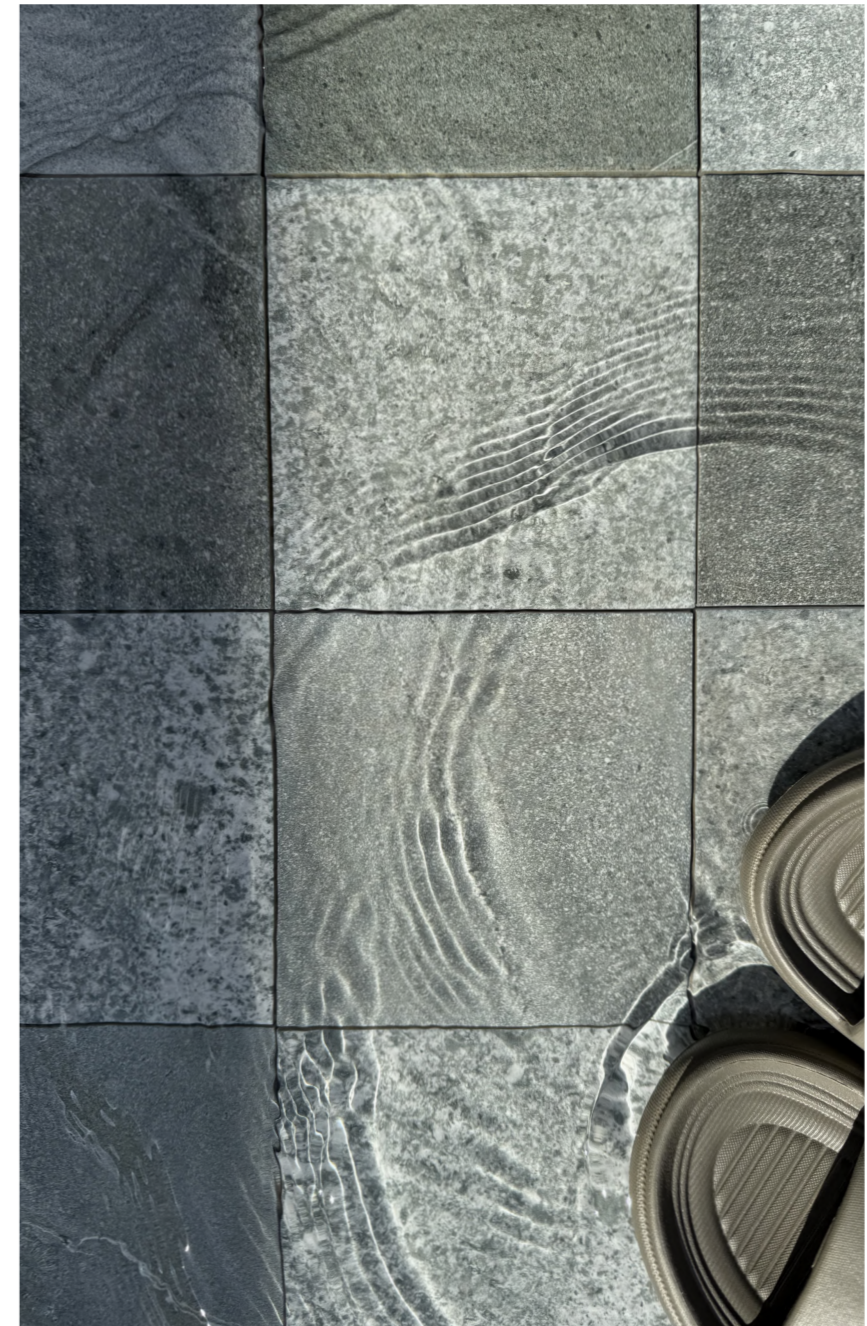

02

Cerámica Mayor's most tropical collection expands its variety with the new Goa tone. Inspired by Sukabumi stone from Indonesia, it features green tones and diverse graphics. With veins and deeper green shades, it maintains the Balinese essence while adding a rich and sophisticated aesthetic to outdoor spaces. The original formats of the Bali collection 30x60 cm and 14.7x14.7 cm are retained, making it lightweight and easy to handle and install without losing the essence of mosaic.

Ease for assembly with *Block 25*

The prefabricated structure for pools, **Block25**, is designed to function as both a drainage channel and support in a **single piece**. Its system streamlines the construction process, **facilitating the installation** of pool edges and drainage grates while ensuring a **perfect finish for the pool**.

The set of **waterproof concrete** blocks consists of a standard solution, solid, cut, and corners. **Constructive results** of high quality without compromising aesthetics.
